

Electrical Parts for Forklifts

Forklift Electrical Parts - Lift trucks together with various lift trucks can have specific labels utilized in some hazardous locations. The label denotes that this specific model of lift truck meets the minimum standards of ANSI/UL 553 meant for electric lift trucks or ANSI/UL 558 for internal combustion engine forklifts.

The use for labels for lift lift trucks could be found in National Fire Protection Association NFPA 505 - Powered Industrial lift trucks including: Maintenance and Operation, Type Designations, and Areas of Use. Consult your local insurance provider and Fire Marshall for additional information on the approved uses of industrial powered trucks in your application.

If the particular forklift satisfies the outlined standards, labels may be put. A labeled forklift will show the type of designation placed on the nameplate and would have a correctly corresponding label placed.
