

Meritor Part

Meritor Parts - Meritor is a leading global dealer that is proudly founded on a 100 year tradition of service and quality. They focus on several modules, integrated systems and parts to original machine makers and the aftermarket for the industrial and transportation sectors.

Meritor prides itself in the company's distinctive energy and thinks that this particular energy contributes to their competitive advantage in the international operations. The business values all their clients and would like to ensure their success while anticipating their different needs. Meritor begins with a culture which values diversity of people and their broad thought processes. Operating in 19 nations and hiring over eleven thousand two hundred individuals, Meritor promotes collaboration and innovation among a team of experienced experts.

By only employing future focused individuals, Meritor strongly thinks these top-caliber workers would be able to rapidly adapt to changing environments and demonstrate the commitment and performance needed in order to achieve results in the competitive materials handling business. The business empowers their teams to make sound business decisions in order to enhance the overall success of the business. In return, Meritor offers their workers different possibilities for professional and personal growth.

Their Advanced Engineering team is at the forefront of components and system engineering which comprise axles, drivelines, suspension and braking systems intended for heavy duty and medium trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is growing. They started a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives that represent the entire Asia Pacific region. This team is likewise responsible for supporting the requirements of all their global engineering personnel.

Meritor's dynamic and customer focused Quality team is devoted to ensuring optimum processing at their production plants and aftermarket distribution facilities which are situated all over the world in 19 nations and in 5 different continents.

The supplier development network is specially situated to support new business growth. Regional teams are supported by worldwide initiatives, quality systems and centralized specialties in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a fact-based, data-driven approach to decision making in every aspect of the business. The DFSS or Design for Six Sigma ensures product reliability within each region. The team is even included transactional Green Belts who apply Six Sigma tools to business techniques and apply lean techniques.
